Our parts policy

We will only authorise and use quality parts that are consistent with the age and condition of your car at the time of the event. These parts may include new genuine or manufacturer approved parts, non-genuine, parallel, reconditioned and/or recycled parts. We will only use new or reconditioned mechanical parts.

When we authorise repairs to your car, all parts used will:

- comply with the manufacturer's specifications;
- meet Australian Design Rules;
- preserve or improve the safety and structural integrity of your car; and
- not void the manufacturer's warranty.

Damaged parts of a set

We will only pay for the replacement of the actual part(s) damaged.

Availability of parts and accessories

If a part or accessory is not reasonably available, we will only pay the cost of an equivalent part or accessory or its last known Australian list price or value. We will not pay for any unreasonable extra costs to get any parts or accessories faster, and we will not take any responsibility for losses arising from any delay in their supply.

Damage to your car's identification

If your car's identification, such as VIN plate or label, has been damaged and we cannot source a replacement from its manufacturer we will try to get written confirmation of your car's identity from the manufacturer. We will then repair your car without replacing any damaged identification, unless the law says we have to.
