The likely objectives, financial situation and needs if customers in the target market is a contribution towards eligible veterinary expenses that they incur, to help ensure their pet can receive appropriate treatment and to reduce (and not cover in full) the cost to the customer of that treatment.

Customers in the target market will be able to afford to pay:

- premiums for the product, which will increase from year to year;
- the full amount for treatment upfront to the vet before seeking claims reimbursement for the eligible expenses, unless using the GapOnly® claims payment platform (in which case, customers need to be able to pay upfront the 'gap' payment the 'gap' means the difference between the vet's invoice for eligible expenses and the claim benefit calculated under the policy terms and conditions, if any); and
- any veterinary expenses above the accepted claim amount, including:
  - the excess (where applicable);
  - costs above the applicable benefit percentage (up to 80% of eligible veterinary expenses);
  - costs above the applicable annual benefit limit (up to \$5,000, \$10,000, \$24,000 or \$30,000 per year depending on the selection chosen); and
