

## Target Market Determination (TMD)

### Everyday Pet Insurance

#### Name of products:

Everyday Pet Insurance - Indoor Cat plan

#### What is a Target Market Determination?

This Target Market Determination (TMD) sets out the class of customers that each product has been designed for and is suitable for. It sets out the target market for each product, conditions and restrictions placed on their distribution, events and circumstances that would reasonably suggest that the TMD is no longer appropriate and review periods and reporting obligations for the TMD.

This TMD does not provide any financial product advice on the products and does not take into consideration the objectives, financial situation and needs of individual customers.

The terms and conditions of the product are set out in the Product Disclosure Statement (PDS). This TMD does not form part of the insurance contract and is not a summary of the product's terms and conditions. Customers should review the PDS before making any decision in relation to the products.

Any terms used in this TMD that are defined in the *Corporations Act 2001* (Cth) have the same meaning as in that Act.

This TMD is available to any person at <https://insurance.everyday.com.au/pet-insurance/useful-documents.html>

**Effective date of this TMD:** 15 November 2024

Annual benefit limit	Up to \$15,000 per policy period
Sub-limits	Sub-limits apply to consultations and emergency boarding
Option(s)	Dental illness benefit

### Other key attributes of these products include:

- they do not provide comprehensive cover for preventative care costs and general pet maintenance costs like grooming and pet food; and
- cover is subject to annual limits (which can increase from time to time to help keep pace with the cost of veterinary care), terms, conditions and exclusions. Examples of key exclusions include waiting periods at the inception of a new policy and coverage exclusions for chronic pre-existing conditions.

### Likely objectives, financial situation and needs of customers in the target market

The likely objectives, financial situation and needs of customers in the target market is contribution towards eligible veterinary expenses that they incur, to help ensure their pet can receive appropriate treatment and to reduce (and not cover in full) the cost to the customer of that treatment.

Customers in the target market will be able to afford to pay:

- premiums for the product, which will increase from year to year;
- the full amount for treatment upfront to the veterinary clinic before seeking claims reimbursement for the eligible expenses, unless using the GapOnly® claims payment platform (in which case, customers need to be able to pay upfront the 'gap' payment - the 'gap' means the difference between the veterinary invoice for eligible expenses and the claim benefit calculated under the policy terms and conditions, if any); and
- any veterinary expenses above the accepted claim amount, including:
  - costs above the applicable benefit percentage (up to 80% of eligible veterinary expenses);
  - costs above the applicable annual benefit limit (up to \$15,000 per policy period ); and
  - costs above the applicable sub-limits and/or limits for dental illness (where applicable).

## Reviewing this document

### Periodic Review

Each issuer will review this TMD within 24 months from its effective date and subsequently every 24 months thereafter.

### Review Triggers

Each issuer will also review this TMD, insofar as it relates to the product issued by them, if there are events or circumstances that reasonably suggest that the TMD is no longer appropriate. The triggers for this review may arise from:

- any material changes being made to the product coverage, pricing methodology, underwriting or eligibility criteria or its method of claims assessment and settlement;
- any material changes to methods of distribution;
- changes in law or regulatory guidance or industry code which may materially affect the terms of cover or distribution or regulatory feedback or concerns raised to suggest the TMD may no longer be appropriate;
- identification of systemic issues and findings, produced from quality assurance or governance processes, that may indicate an issue with the product or the appropriateness of the TMD;
- any occurrence of a significant dealing outside of the target market;
- compliance incidents and breaches that may indicate an issue with the product and the appropriateness of the TMD; or
- trends or material changes that are inconsistent with the intended product performance based on metrics that track:
  - financial performance of the product (including but not limited to the loss ratio);
  - product desirability (including but not limited to the number and types of cancellations);
  - benefit attained from the product by customers (including but not limited to the claims frequency and average benefit paid);
  - overall claims experience (including but not limited to the claims approval rates, claims processing speed and claims submission methods);
  - complaints (including but not limited to the number and type of complaints received); and
  - customer feedback received (including but not limited to the number of hardship requests).
